

HKS RotoBox

Continuous rotating in both directions

One HKS RotoBox for all attachments

Even **greater freedom of movement** due to an **extended radius of action**

Your operating range is extended to 360° with the **HKS RotoBox**. This makes it possible to work more flexibly in a stationary position and to enter into new fields of operation. Hydraulic tools requiring a large amount of oil can also be used with the optional **HKS rotary oil feedthrough**.

Details

- ▶ Torque of up to 12,000 Nm
- ▶ Up to 8 rotations per minute
- ▶ Operating pressure of up to 175 bar
- ▶ 7 sizes for carrier device weights of up to 50 t
